Concrete: Build It To Last

Join us for the **2018 Annual Virginia Concrete Conference** for the Virginia Transportation Industry. This is our annual forum for the exchange of information and technology transfer with focus on concrete pavements and structures, as well as concrete materials. Emphasis will be placed on technical advancements/improvements and the viability of concrete for transportation applications.

Industry and government experts will join us to share their knowledge and experiences in their field of expertise. **Don't miss this opportunity to network with the industry's leading professionals** as you learn about the latest developments in concrete, pavements, and bridges.

TOPICS

- > **Radio Frequency Identification (RFID) Tags Used in Construction**
- > **Chesapeake Bay Bridge Tunnel Project Overview**
- > **Pervious Concrete/Salem Park & Ride**
- > **Sustainable Bridges**

Time is of the essence so ACT NOW and register as an Exhibitor and/or Door Prize Sponsor!
